1. General Description

- Early Payout is an exclusive feature of the Lígalo Sports module that rewards users when their selected team dominates the scoreboard.
- If during a sporting event the team selected in your Moneyline bet builds a significant lead, the system automatically pays your bet as a winner at 90% of the potential winnings calculated from the original odds.
- The payout is irrevocable: once credited, the amount stays in your balance regardless of the final result of the event.

2. When is Early Payout Triggered?

Sport / League	Threshold
Soccer — Europe & South America	2-goal lead
Baseball (MLB)	6-run lead
Basketball (NBA)	22-point lead
American Football (NFL)	20-point lead
Ice Hockey (NHL)	3-goal lead

- The system monitors scores in real time. The moment the required lead is detected, the payout is processed automatically.

3. Eligible Bets

- Only applies to Moneyline bets (bet on the winner of the event).
- Only applies to single bets (not parlays or systems).
- The bet must be in "pending" status at the time the condition is met.
- The odds used for the payout are the original odds at the time of bet placement.

4. How Does It Work?

1. You place your Moneyline bet on any eligible sporting event.
2. The event starts and the system monitors the live score.
3. If at any point your team reaches the minimum required lead, the system executes the payout automatically.
4. The winnings are credited to your balance immediately.
5. You don't need to do anything — the process is completely automatic.

5. Important Rules

- The early payout is irrevocable. If your team is winning 6-0 in MLB and then loses 6-7, your payout remains.
- Early Payout credits 90% of the potential winnings. The remaining 10% is the platform fee for the early cash-out benefit.
- Only the lead at the moment the score is read is evaluated (the lead does not need to be maintained).
- If the bet has already been settled (won, lost, cancelled), Early Payout does not apply.
- Early Payout is subject to availability and may be enabled or disabled by the administration at any time.
- Suspended or cancelled events are not eligible for Early Payout.

6. Practical Examples

Example 2 — Baseball: You bet \$20 on the Yankees ML (odds +130). The Yankees are winning 8-2 (6-run lead). Early Payout is triggered and you receive \$23.40 in winnings (90% of \$26.00), plus your original stake.

Example 3 — Basketball: You bet \$15 on the Lakers ML (odds -110). The Lakers are winning 98-76 (22-point lead). Early Payout is triggered and you receive \$12.27 in winnings (90% of \$13.64).
