

Super Polla Pool Rules

Lígalo En Línea — Collective Pool Bet

MULTIPLICA TU PASIÓN

1. Overview

The Super Polla is a collective pool bet where all participants contribute to the pot. You must pick the winner in the designated races. The pool is shared among winners. It's the bet with the highest potential accumulated prize.

2. How to Bet

- In the "Super Polla" module, you'll see the designated races for the polla.
- For each race, select one or more horses as potential winners.
- Combinations are calculated automatically: $\text{Cost} = \text{base amount} \times \text{total combinations}$.
- Enter the base amount per combination and confirm.

3. Racetracks & Races

Lígalo En Línea offers races from over 40 racetracks across the United States, international venues, and Latin America.

- USA & International Tracks: Entries, live odds, and results are continuously updated.
- Latin American Tracks: Managed by the Lígalo team.
- Races open for betting according to the track schedule.
- Betting closes automatically 2 minutes before post time.
- Once a race is closed, no more bets are accepted until results are published.

4. Bet Rules

- You must pick the winner in each designated Super Polla race.
- You can select multiple horses per race to cover more combinations.
- Total cost = base amount \times (selections race 1 \times selections race 2 \times ...).
- If a selected horse is scratched, combinations are recalculated.
- If a race is canceled, it's recalculated on remaining races.

Carryover:

- If no participant hits all races, the pool carries over to the next Super Polla.
- Accumulated pools can generate very significant prizes.

5. Pool Distribution

- The total pool includes the day's bets plus any accumulated carryover.
- The platform retains a commission from the pool (visible in the interface).
- The net pool is divided equally among all winning tickets.
- Winnings are automatically credited to the user's balance.
- If there is a single winner, the entire pool goes to that ticket.
