

Tripleta Rules

Lígalo En Línea — Fixed-Prize Exotic Bet

MULTIPLY YOUR PASSION

1. Overview

Tripleta is a bet in which you must pick the winning horse in each of the **three races** designated by the administration for the race day. All three selections must win to collect.

Unlike dividend-based bets, Tripleta pays a **fixed prize** announced before sales open. Each three-horse combination has its own price and a single buyer.

2. Where and When

- Tripleta is available only at the tracks and race days where the administration publishes it. You can find them in the Games menu and in the Daily Program.
- One Tripleta is offered per race day. The three races, the factor and the fixed prize are set by the administration.
- The Tripleta tab appears in the betting window on every race of the day, with its status: **Open**, **Closed** or **Finished**.

3. How to Play

- Open the **Tripleta** tab in the betting window.
- Choose one horse in the first race and one in the second race.
- Tap a horse in the third race to see the price of that combination.
- Confirm the purchase. The cost is deducted from your balance and you receive a ticket with a serial number.
- Each combination has only one buyer. A sold combination shows as **Sold** and cannot be bought again. You may buy as many available combinations as you wish.

4. Combination Price

The price of each combination is calculated as follows:

$$\text{Price} = (\text{Horse 1 price} + \text{Horse 2 price} + \text{Horse 3 price}) \times \text{Factor}$$

- Each horse price is its Dynamic Table price. If a race has no Dynamic Table prices, a price derived from the Morning Line is used.
- The minimum price of a combination is USD 0.10.
- The price is locked at the time of purchase. If the administration updates prices or the factor, the change only affects combinations still available.

5. Sales Opening and Closing

- Sales remain open while all three races are open.
- Sales close automatically when the first of the three races closes. The administration may also close them earlier.
- Once sales are closed you can view the Tripleta and its combinations, but you cannot buy.

6. Winners and Prize

- The winning combination is the one containing the official winner of each of the three races.
- The fixed prize is credited automatically to your balance once the results of all three races are official.
- If the winning combination was not sold, no prize is paid.
- All other sold combinations are settled as losers.

7. Dead Heats

- If there is a dead heat for first place in one or more races, every combination formed by the tied winners is a winner.
- The fixed prize is split in **equal shares** among the **sold** winning combinations. If only one was sold, it receives the full prize.
- If the same user holds several winning combinations, they collect one share for each.
- Leftover cents from the split are assigned one at a time, starting with the oldest purchase.

8. Scratched Horses

- If a horse in your combination is scratched, you are refunded the **full amount paid** for that combination. There is no substitution.
- The refund is made only once per ticket, and that combination is not sold again.
- Available combinations that include a scratched horse are removed from sale.

9. Cancelled or Postponed Races

- If any of the three races is moved to another day or cancelled for good, the whole Tripleta is voided and all valid purchases are refunded, even if the other races have already been run.
- The Tripleta is never converted into a two-race bet.
- A pending or under-review official result is not a cancellation: settlement waits for the official result.

10. Administrative Voiding

- The administration may void a ticket before settlement, with a full refund of the amount paid.
- If sales are still open, that combination becomes available for sale again.

11. Limits

- Price per combination: minimum USD 0.10 – maximum USD 500.00, or the individual limit assigned to your account.
- The platform may restrict access to this game per account.

12. Multi-Currency

- USD is the internal base currency. Price and prize are set in USD.
- When you buy, the price is converted to your currency at the exchange rate in effect at that moment, and that rate is recorded on the ticket.
- Refunds return exactly the amount you paid, at the purchase rate.
- The prize is credited in your currency at the exchange rate in effect at settlement, and that rate is recorded on the transaction.
- VES, COP, DOP, EUR and other currencies enabled on the platform are accepted.

13. Privacy

- The betting window only shows whether a combination is available or sold, and which combinations are yours. It never shows who bought the others.

14. Loyalty Program (Ligalo Points)

- Tripleta purchases earn Ligalo Points (LP) at the Loyalty Program rate in effect.
- LP accumulate on both wins and losses. If a purchase is refunded, the LP earned on it are reversed.
- LP count toward your VIP level and can be redeemed under the Loyalty Program rules.

15. General and Important Rules
